Saia Stueng

The Hamburger Princess

Saia Stueng has written *The Hamburger Princess*, a novel for young adults. The novel is about Máren, a 17-year old high school student. At school, she has to deal with the other girls in her class, while at the same time dreaming of the school's Casanova. In the evening, she derives strength from her relationship with Máhtte.

The feeling I have at this present moment is a strong one.

I, Máren, a 17-year old high school student, elephant and hamburger princess, have gone and fallen in love with an old man.

Saia Stueng's novel deals with the complexity and multi-faceted nature of life, and Máren experiences

both adversity as well as love's tender touch. The book contains elements of dark humour, in which sexuality, abuse of power, bullying and love go hand in hand.

"Dark humour, coarse language and taboos."

- Ávvir (Saami newspaper)
