Coco-Banana and the Fart Soda

Coco-Banana and the Fart Soda is the third book in a series. In this book, it is Grandad Banana's birthday, and Coco-Banana and the family are going to his party. But Coco-Banana is dreading it, because it's always really boring when the old bananas just sit around talking about grown-up things. He decides to inject some life into the party by inventing fart soda. But what will the serious Grandad Banana have to say when the grown-up conversation is drowned out by fart sounds?

Victoria Hamre's illustrations are like something straight from an animated film.
