## *Rainy Day*

**A splashy story – without a word.**

A little boy stands at the window and watches the rain fall outside. He puts on his rainwear and hurries out the door with his dog. They jump from puddle to puddle. The rain pours down and the puddles become deeper and deeper. Soon the boy and his dog are sailing down the street in an open umbrella! The current becomes stronger and suddenly the street becomes a river on its way to the open sea! Where in the world is this going to end? Will they ever be able to come back home again?

A textless illustrated book in the land between fantasy and reality.
