Paper Pilots

“Paper Pilots” tells a story about a man who wakes up with amnesia in a hotel room far from home. With him he has a stack of old postcards, to help him remember his personal relations, travels and whereabouts. This is the starting point for a story of travel dreams, memory loss and love in the time of the Rough Guides and Lonely Planet generation.

This title is an adult novel very rich with illustrations. As postcards play an important role in the story, all the illustrations are collages made of second hand postcards from all over the world.
